## ~A Note About the Seminar Series and Presenter~

This is the third in a series of lectures dedicated to providing teachers, administrators, staff and educational officials an opportunity to gather annually to discuss issues of current concern in teaching and learning. Each year an influential figure in education will be invited to Roxbury to share his or her knowledge about instructional pedagogy, assessment, standards, differentiation, gifted programs, special education and/or other topics of interest.

This year's spotlight is on empowering teachers to focus on the individual needs of students. Embracing the belief that all students can learn, this year's guest will undoubtedly provide a renewed sense of commitment, dedication and conviction to the principles that our future is in the eyes of students.

Michael A. Rossi, Jr., Ph.D.  
Seminar Series Chair

**Roxbury Township School District**  
42 North Hillside Avenue  
Succasunna, NJ 07876

## Presenter: *Dr. Joseph Renzulli*

Dr. Joseph S. Renzulli is one of the foremost leaders in the field of gifted education. He currently is at the University of Connecticut and lectures and writes extensively in the field of gifted identification and assessment. In this interview, he discusses his current research and reflects on the field of education of the gifted. He is most well known for his three-ring conception of giftedness.

Dr. Renzulli is Professor of Educational Psychology at the University of Connecticut, where he also serves as director of the National Research Center on the Gifted and Talented. His research has focused on the identification and development of creativity and giftedness in young people and on organizational models and curricular strategies for total school improvement. A focus of his work has been on applying the strategies of gifted education to the improvement of learning for all students. He is a Fellow in the American Psychological Association and was a consultant to the White House Task Force on Education of the Gifted and Talented. He was recently designated a Board of Trustees Distinguished Professor at the University of Connecticut. Although he has obtained more than \$20 million in research grants, he lists as his proudest professional accomplishments the UConn Mentor Connection program for gifted young students and the summer Confratute program at UConn, which began in 1978 and has served thousands of teachers and administrators from around the world.
