

Coffee & Conversation

with Superintendent of Schools **Dr. Frank Santora**

held at Eisenhower Middle School • March 27, 2024

"Capturing student data and turning insight into action"

- **To strengthen our district's tiered systems of support,** we are currently exploring a partnership with **LinkIt**, a data warehousing and analytics platform.
- **This system will:**
 - **enable our faculty & administrators to continuously monitor student progress** and
 - **use data to plan comprehensive and individualized instructional experiences for students.**

A Team-Based Approach

A combination of software, content, and services to make schools successful using data

"Capturing student data and turning insight into action"

Core Functions

Assessment Solutions

Extensive library of assessment content for both online and paper-based test administration.

Data Warehousing

Collects, stores & analyzes data with easy-to-use reporting capabilities.

LinkIt!

Data Analytics

Advanced reporting services that identify patterns & trends to improve decision making.

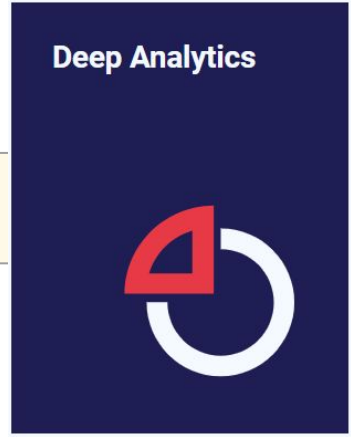

Intervention Management

Offers an online management suite to support **MTSS** (Multi-Tiered System of Support)

“Capturing student data and turning insight into action”

- **Through this partnership, our staff will be able to:**
 - Analyze student data on a regular basis
 - Systematically plan instruction that is based on individual student needs
 - Track student progress
 - Review general trends as well as individual students’ patterns of performance

- **In order to assess the effectiveness and relevance of this platform for our district,** there is **currently a pilot group** of teachers using **LinkIt** as part of their daily practice.

RSVP-3 Morris County, NJ

Responsible School Violence Prevention, Preparation, Protection

- **What is RSVP-3?**

- An application that enables Morris County residents the **opportunity to anonymously report** any act or instance that threatens, harasses either them directly or someone that they know.
- The report is then **received in real-time** by the Morris County Sheriff's Office and the Morris County Communications Center (*shared with Prosecutor's Office and local Police*).
- The information is then **routed to trained investigating teams** (*local law enforcement, mental health professionals*).

RSVP-3 Morris County, NJ

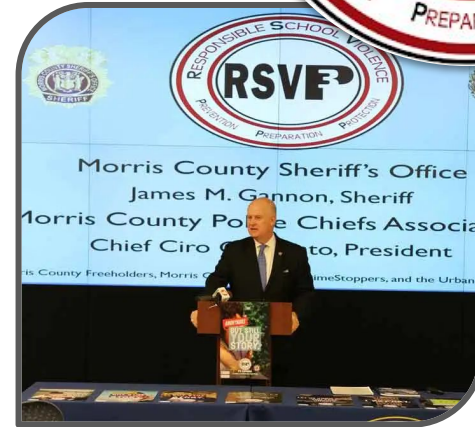

Responsible School Violence Prevention, Preparation, Protection

How it Works (continued)

- **Investigative teams will receive tips that pertain to:**

- Threats to school
- Threats of Self-harm (Suicide)
- Depression
- Sexual Assault
- Substance Use (Alcohol/Drugs)
- Fighting

Morris County Sheriff
James Gannon
as pictured in the Parsippany Focus

- **Tips that pertain to life threatening issues require immediate action.**

RSVP-3 Morris County, NJ

Responsible School Violence Prevention, Preparation, Protection

- **RSVP-3 Morris** can be downloaded in either the [Apple App Store](#) or the [Google Play Store](#).
- **Along with RSVP-3**, Roxbury staff members were trained in the **Behavioral Threat Assessment Model**:
 - **BTAM** is a method of assessing potential threats developed by the US Dept of Homeland Security and the US Secret Service.
 - The goal in utilizing this program is to prevent any potential act of school violence.
