August 2023

Dear Parents,

The purpose of this letter is to inform you of the new Mathematics Supplemental Curriculum Series for both Elementary and Middle School grade levels. Students within these grade levels will utilize Reveal Math as the supplemental supplement to our curricular program which is aligned to the New Jersey Student Learning Standards (NJSLS). This program was chosen because of its vast amount of resources created in order to meet the diverse needs of all students, in addition to the incorporation of STEM and career based explorations. Faculty using this program are being trained on best practices using the Reveal Series. They are also reviewing/revising the curriculum in order to create further opportunities for our students to deepen and enhance their mathematical skills and knowledge.

We are very excited to embark on this journey. More information will be shared by your child's teacher at Back to School Night. We welcome any questions and would be happy to address any concerns you may have. We are looking forward to another amazing year of mathematics teaching and learning together. Wishing you an enjoyable remainder of the summer.

Sincerely,

Mrs. Erika Kelly
