MEMBERSHIP IN THE NEW JERSEY STATE INTERSCHOLASTIC ATHLETIC ASSOCIATION

- \*52. RESOLVED, that the Roxbury Township Board of Education, County of Morris, State of New Jersey, as provided for in Chapter 172 Laws 1979 (N.J.S.A. 18A:11-3, et seq.) hereby approves Roxbury High School to enroll as a member of the New Jersey State Interscholastic Athletic Association (NJSIAA) and an annual fee of \$2,500.00 for 2024/2025 School Year, a non-profit association of the public and non-public high schools in the State of New Jersey, and is authorized to participate in the approved athletic activities sponsored by the NJSIAA.

This resolution is to continue in effect until or unless rescinded by the Board of Education and shall be included among those policies adopted annually by the Board. Pursuant to N.J.S.A. 18A:11-3 in adopting this resolution, the Board of Education adopts as its own policy and agrees to be governed by the Constitution, Bylaws, Rules and Regulations of the NJSIAA.

Administrative Responsibility – NJSIAA must rely upon the voluntary compliance by its member schools in enforcing the eligibility standards set forth in NJSIAA Bylaws, Article V. Toward that end, the Principal of each member school has the affirmative obligation to report to the NJSIAA any violations of these standards. The fact that a school has disclosed that there has been an eligibility violation will not relieve the affected school of sanctions that may be imposed against it, pursuant to Article X of the NJSIAA Bylaws, including the forfeiture of games or events. However, the failure to disclose an eligibility violation may be grounds for imposing additional sanctions upon the offending school.

In addition, a school must maintain a status of “Member in Good Standing” as outlined in the Principal’s Affidavit to remain eligible for NJSIAA activities and tournaments.

ROXBURY TOWNSHIP  
**BOARD OF EDUCATION**

PROGRAM  
R 2624/Page 1 of 11  
GRADING SYSTEM

## R 2624 GRADING SYSTEM

### A. Purpose of Assessment

1. Assist students in the process of learning; all assessment systems will be subject to continual review and revision to that end.
2. Acknowledge a student's demonstrated proficiency in the New Jersey Student Learning Standards and district approved curricular learning goals and objectives with thorough preparation and performance on tests, assessments, projects, and labs.
3. Provide non-assessment value opportunities for students to engage in and demonstrate productive habits and learning behaviors such as:
  - a. Active participation in and attention to daily lessons,
  - b. Frequent contribution to discussions,
  - c. Prompt, thorough, accurate, and neat preparation of assignments,
  - d. Display of an eagerness to learn and an inquisitive approach to lessons,
  - e. Attention to the need for proper materials,
  - f. Cooperation with the teacher's efforts, and
  - g. Willingness to work to the best of their ability.
4. Guide instructional decisions to support learning sequencing, timing, and support.

### B. Assessment/Grading

1. Each student must be informed of the behavior and achievements expected of them at the outset of each course of study. In grades 9-12, these expectations will be included in a course syllabus.

2. Each student must be kept informed of their progress during the course through the Student Management System (i.e. Genesis). Graded assignments will be entered in the Student Management System (i.e. Genesis) within a time frame that reasonably allows students to use feedback to improve demonstration of learning growth including individual comment, when appropriate.
3. Each method of assessment/grading shall be appropriate to the course of study, the maturity, abilities, and learning preferences of the students, and reflect consistency across grades and subjects.
4. Students should be encouraged to evaluate their own achievements through regular reflection, self-assessment and goal monitoring. Students should also be encouraged to seek peer-review and/or engage in collaborative reflection as appropriate.
5. The process of review of graded assignments will involve teaching staff members, students, and, as appropriate, parents.
6. When appropriate, a process for the submission of revisions will be afforded to students in order to foster a culture that learning is a process.

C. Assessment/Grading Periods

1. Grades will be awarded at the end of four marking periods in each school year for grades five through twelve.
2. Students and parents will have ongoing access to student achievement records through Genesis.
3. Students in grades six through twelve will earn a final grade in each subject at the end of the school year based on the accumulation of achievement through the year.

D. Basis for Assessment/Grading

The teacher responsible for assigning a grade should take into consideration the student's:

1. Completion of assessments, papers, projects, or other formal assessments. The criteria of evaluation will accompany formal assessments, such as a rubric. Formal assessments will be connected to application of content and skills and cover a variety of depth of knowledge levels.
2. Non-assessment values, such as participation and homework, may only be included in the assignment of a grade if there are specific criteria provided to the student as to the evaluation of these items at the onset of the class.

E. Meaning of Grades 7-12

1. The following describes grades that can be earned in each subject at the end of each marking period in grades seven through twelve:
  - a. A grade of A indicates superior academic performance. It may be earned by a student whose achievement exceeds course expectations; whose work achieves a quality and quantity that consistently excels; and who demonstrates a high degree of initiative, application, and purpose.
  - b. A grade of B indicates above average academic performance. It may be earned by a student whose achievement consistently meets course expectations; whose work frequently excels; and who generally demonstrates strength in the subject.
  - c. A grade of C indicates average academic performance. It may be earned by a student whose achievement meets course expectations; whose work is acceptable; and who demonstrates a satisfactory degree of proficiency.
  - d. A grade of D indicates below average academic performance. It may be earned by a student whose achievement partially meets course expectations; whose work is the minimum acceptable for credit; and who demonstrates only weak proficiencies in the subject.

## ROXBURY TOWNSHIP BOARD OF EDUCATION

PROGRAM  
R 2624/Page 4 of 11  
GRADING SYSTEM

- e. A grade of F indicates a failure to meet course expectations and that no credit can be awarded for the subject. It may be earned by a student who has not met the minimum requirements of the course; who has demonstrated an inability to master the basic elements of the course.
  - f. Letter grades may be modified by plus or minus signs.
2. The following grading scales and indicators shall be used:

Grades 5 - 8    97-100 = A+  
                    93-96 = A  
                    90-92 = A-

                    87-89 = B+  
                    83-86 = B

3. A grade of "Incomplete" will be given to those students unable to complete the work assigned to the course for reasons beyond the student's control, such as illness, or at the discretion of the teacher where such circumstances exist that hinder a teacher's ability to accurately report progress based on the present information.
  - a. A teacher who submits a grade of incomplete will accompany the grade with a reasonable estimate of the amount of time the student will require to complete the work necessary for the granting of credit.
  - b. Except as may be required by unusual circumstances, make up work should be completed within two weeks of the end of the marking period or, if the student is disabled at the end

- of the marking period, two weeks after the student's return to school.
- c. The student's completed work will be graded and the teacher will submit a grade, which will replace the incomplete grade on the student's transcript.
  - d. A student who does not complete the work within the period allowed will receive the earned grade in the subject based on the work completed.
4. In grades 9-12, a grade of "Withdraw" will be given to each student who withdraws from a course of study after fifteen school days.
- a. A grade of "withdraw-passing" (WP) will be given to each student whose accumulated achievement grade was passing but the student withdrew after the drop deadline.
  - b. A grade of "withdraw-failing" (WF) will be given to each student whose accumulated achievement grade was failing but the student withdrew after the drop deadline.
5. A grade of "medical excused" (ME) will be given to each student in a physical education class who was excused for good cause from participation in certain aspects of the course requirements as supported by medical documentation.
6. Final Assessments

Students at the high school will take a final assessment in all full year and semester courses. The assessments will measure the degree to which students demonstrate achievement of course objectives and will be counted as the equivalent of one half marking period in the determination of the semester and final grade average.

Students who request to be excused from school at the end of the year before assessments begin must receive the written approval of the Principal. The number of school days missed by the student must not exceed the total number of cumulative absences provided in the attendance policy, and the student must be willing to take make-up assessments

during the summer prior to the opening of school the following year. All students must be prepared to take all assessments unless excused. Failure to take assessments will result in Administrative failure and a grade of zero, which results in no credit being granted for the course. Students may repeat the course in summer school or during the following school year. Students will be permitted to make-up assessments on the designated makeup day or during the summer only under the following stipulations:

- a. Personal illness or recovery from an accident, which is verified by a doctor's note.
- b. Death in the immediate family.
- c. Suspension from school.
- d. Subpoena - court ordered appearance.
- e. Other absences authorized by the Principal with prior written approval.

## 7. Exemption Policy and Final Assessment

Students who achieve a year-long average of 90 will be exempt from the final assessment for the subject in which the average was attained. However, those students have the option to take the final assessment even though they may have exemption status if they so choose.

Advanced Placement **students** ~~seniors~~ who achieve yearlong an average of **70** ~~90~~ and have taken the AP exam will be exempt from the final assessment for the subject in which the average was attained. However, those students will have the option to take the final assessment even though they may have exemption status.

Final assessment is the term used to describe the evaluation of course and state core proficiencies in semester and year-end course evaluations.

- a. Final assessments will follow one of the following formats:
  - (1) Application based project/assessment administered prior to the final exam schedule at the conclusion of

the year. In this instance students are required to attend the final exam period where the teacher will provide individual feedback and gather student feedback on the course.

- (2) Traditional final assessment in the form of a large format assessment (multiple choice, short answer, essay) administered during the final exam period. In this instance the teacher must have a plan to provide individual feedback (including this assessment to students) and to gather feedback on the course.

- b. Final assessments will include the core proficiencies in the identical format mutually agreed upon by grade level teachers and department supervisors.

Additional assessment items will be the same in format but may differ in content as agreed upon by grade level teachers and department supervisors.

- c. Each final assessment will be approved by the department supervisor prior to its administration.
- d. Special education students' final assessments may be modified based on their IEP's.
- e. Appeals on grades for final assessments will be handled through the regular chain of command, i.e., teacher, supervisor, administrator, Superintendent. Grades will not be changed without consulting the teacher.
- f. The value of the final assessments will represent 1/9 of the final grade average except if a student is exempt from examinations. An example of a final grade average as calculated by our computer program will be:

1st marking period	$90 \times 2 = 180$
2nd marking period	$80 \times 2 = 160$
3rd marking period	$70 \times 2 = 140$
4th marking period	$85 \times 2 = 170$

$$\begin{array}{r} \text{Final Exam} \qquad 75 \times 1 = 75 \\ 725 \div 9 = 80.5 = 81 \end{array}$$

Exemptions will be reflected in the denominator when the final averages are calculated. For instance, if a senior student is exempt from the final, the sum of the marking periods will be divisible by 8.

F. Additional Grading Considerations

1. Retakes and supplemental credit may be permitted by the teacher and in accordance with departmental procedure in order to allow any student to demonstrate proficiency and growth based on course goals, or standards. Teachers shall set criteria for earning this opportunity.
2. Extra credit for the sole purpose of additional points for a reason not connected to course goals is not permitted. Supplemental credit connected to learning proficiency is described above.

G. Grade Validation

In order that they may justify a grade, each teacher is directed to retain in their possession and give a copy to the Principal the following records to validate grades awarded to students. The records should be kept for a minimum of six years after the end of the school year in which the grades were awarded. These records will be maintained in the Student Management System (i.e. Genesis).

1. The daily attendance and tardiness record;
2. All grades earned for classroom activities such as quizzes, tests, reports, and class recitations;
3. All grades earned for activities conducted elsewhere, such as homework assignments and term papers;
4. Any notation regarding the meaning of each grade and its relation to the type of activity or material covered;

5. Any notation of discussions with the student on a grade or the student's cumulative grade average;
6. Any referrals for guidance, discipline, and the like; and
7. Any notations recording communications between the teacher and the parent(s) or legal guardian(s), the Principal, or other teaching staff members.

F. Appeal

1. Each teacher is responsible for the determination of the grade a student earned for non-assessment values in the teacher's course of study in accordance with D.2.
2. Each teacher may be required to furnish data, supported by evidence (see Paragraph E above) to substantiate any grade earned as outlined in course syllabus.
3. If a grade is challenged by a student or a parent(s) or legal guardian(s), the teacher will convene a conference and will explain the grading system and the reasons for the final grade.
4. If the parent(s) or legal guardian(s) or student is not satisfied by the teacher's explanations, he/she may appeal the grade through the regular chain of command (i.e., teacher, supervisor, administrator, Superintendent) who will consult with the teacher and the student in an attempt to resolve the dispute. The administration will give every reasonable deference to the teacher's professional judgment.
5. If the Principal determines that the grade should be changed, he/she will alter the grade on all records and indicate by whose authority the grade has been changed.
6. No reprisals will be taken in any form against a teacher who remains determined in their belief that the grade originally given is fair and correct.
7. The Superintendent may hear an appeal from the Principal's determination. Only in the most extraordinary circumstances will

the Superintendent alter a grade determined at the school building level.
